WELCOME

The last 12 months has been turbulent for us all, staff, customers, and suppliers alike! We are however proud to have adapted to the new world whilst continuing to serve our customers throughout.

One of our biggest achievements during the latest lockdown was adapting to the delivery of our ADR (Carriage of Dangerous Goods by Road) course online. We were initially reluctant to do this due to the duration and the intensity of the training however to satisfy customer demand we invested in additional technology and staff training to make this happen!

Between February and March, we delivered 10 ADR courses online via zoom, successfully training over 90 candidates with a first-time pass rate of 98%. In all honesty, these facts and figures surprised us all as we were unsure of the impact and value of remote delivery for such a course.

Moving into May as the restrictions ease, we are bringing back face to face ADR training, however, we feel online courses are not going to disappear and we will continue to develop these to ensure they are engaging and interactive.

Some of our popular online courses include Dangerous Goods Awareness, IMDG, Driver CPC and Operator CPC Refresher. These courses are mainly 1-day in duration and helps employees access courses from anywhere in the country.

In other news, OCR announced their withdrawal from the Transport Management Level 3 qualification in December 2021 giving us 12 months' notice to seek an alternative awarding body. After thorough research we applied to CILT(UK) and are now pleased to be an approved centre so we can continue to offer the qualification. Please note, those customers who have yet to gain the full award under OCR, we will continue to provide exams until December 2021.

We have all adapted to a 'changing' environment over the last 12 months however more so for our employee Nigel, a long standing and valued member of the team as he has decided he is going to retire and will finish at the end of May! Nigel has been in the industry for over 40 years and has enjoyed 18 years at Specialist Training. Often learners call and enquire 'is the guy still there, the one with the caravan in the warehouse'. Nigel's breadth and depth of knowledge will be missed by staff and learners', but we wish him well in his well-earned retirement!

Whilst we are busy finalising our new developments (exciting times ahead) we will continue to follow the roadmap out of lockdown and look forward to the rest of year. Keep your eye on social media communications to keep up to date!

If you see a course but require a specific date, then please give us a call on 01282 687090 as we may be able to create one just for you or if you prefer to arrange a course specific for your employees then contact us as we may be able to help.

I look forward to working closely with you all for the remainder of 2021.

All the very best

Nicola Dugdale
Managing Director

FORKLIFT TRUCK

OPERATOR TRAINING

Our RTITB Forklift Truck purpose-built training centre in East Lancashire has 3 training bays available for your Forklift Truck Counterbalance and Reach Operator requirements.

RTITB or Certificate of Competence courses are available on a weekly basis on a ratio of 3 trainees to 1 instructor. We can deliver courses for your new operators or those operators who are looking to operate a different truck type as well as refresher candidates. The course duration varies depending upon existing skill level of the operator, so please call us to discuss your exact training needs.

Training can also take place onsite at customer premises on a wide range of Mechanical Handling equipment such as counterbalance, reach, Moffett, pedestrian pallet, pivot steer, very narrow aisle, order picker, side loader, scissor lift and cherry picker. Dates can be arranged to suit your operations.

If you know which course you require please click here to see our current [Fork Lift Truck Availability](#).

FORKLIFT SUPERVISOR TRAINING

This **1-day** course provides an overview to those responsible for supervising or managing FLT operators in the workplace, even though they may not be operators themselves. As stated in the PUWER Regulations it is a requirement for all supervisors of workplace equipment to receive adequate training.

INSTRUCTOR / EXAMINER TRAINING

We are an **RTITB** Forklift Truck Instructor / Examiner **approved** training centre in East Lancashire. This course aims to up-skill a member of staff to RTITB Instructor standard to prepare them to deliver accredited operator training.

Once an individual is qualified, they will be able to instruct and examine on trucks for which they hold the relevant operator's certificate.

The instructor qualification is valid for 5 years upon when they will be required to attend a refresher course.

FIRST AID AT WORK

Our DYNAMIC AND ENGAGING approach to First Aid at Work training has been a huge success following outstanding feedback from our customers. The course is very hands on involving lots of role play scenarios to keep up with the demands on first aiders, introducing new techniques and responsibilities.

Our continual assessment approach means that skills are explained, demonstrated, practiced, and assessed constantly as the course progresses. Trainees are presented with scenarios consisting of some very realistic issues. We feel this type of situation gives the trainees increased confidence in their own skills and abilities, should they ever have to deal with a real-life emergency.

CPC INTENSIVE COURSE

This 10-day intensive public course follows the latest exam syllabus, which is based directly on Regulation EC 1071/2009, includes exam preparation for the two examinations and is held at our approved training centre. Upon successfully passing the examinations, a certificate will be awarded by CILT (UK).

CPC REFRESHER / REGULATORY UPDATE COURSE

This 1 or 2-day intensive course is designed to update the knowledge of existing transport managers and other related transport professionals who already hold a CPC. Such training is recommended by the Traffic Commissioners as important in ensuring managers are "up to date" in their transport knowledge.

ROAD TRANSPORT OPERATIONS – INTRODUCTION

This 3-day course is designed for those involved with transport operations who have had no formal training. The course will provide an understanding to the transport legislation, workplace transport and road traffic regulations. This course is suitable for those who would like to enhance their transport operations knowledge without having to attend the full Transport Managers qualification.

DANGEROUS GOODS

CARRIAGE OF DANGEROUS GOODS BY ROAD – ADR

This course is for drivers who transport regulated dangerous goods over certain load thresholds by road. Drivers must attend an approved course and pass an examination set by SQA. Certificates are valid for 5 years.

This course is modular and can include all classes of dangerous goods including Explosives and Radioactives. Our public course can be tailored so the drivers only need to attend the modules they require. The course can also count for up to a maximum of **28 hours of Driver CPC training** depending on the modules attended.

Since the introduction of **computer-based exams (currently only available at Accrington location)** the drivers have been able to get their results immediately after the course. This has been hugely successful and beneficial to the driver especially as the ADR card is published within 7 days.

| IMDG | Monday – 15/11/2021 | 1 Day | Warrington |

“Just had 6 drivers go through their ADR course, 2 of them not having had any ADR experience before and a 100% pass rate. I was sceptical about doing the course over zoom, but it was done in a professional way with great success. Well done Specialist for offering and successfully communicating this course during difficult times.”

David Ashworth, CSH Transport, Apr 21

CARRIAGE OF DANGEROUS GOODS BY AIR - CAA /IATA

This CAA approved and certified course complies with the training requirements of the IATA Regulations and is designed for those responsible for arranging movements of dangerous goods by air. Personnel involved with classification, packing, labelling and completing / signing off documentation would need to attend this course. Upon passing the course, trainees will be issued with a CAA approved Carriage of Dangerous Goods by Air certificate.

DANGEROUS GOODS AWARENESS

Bespoke multimodal Dangerous Goods Awareness sessions can be delivered for a group of your staff ranging from a half day generic session covering all types of dangerous goods to a more detailed chemical class specific course. These courses can also be carried out **ONLINE** if preferred. **Please call to discuss your exact training requirements.**

LITHIUM BATTERIES

As the demand for wireless equipment increases so does the demand for the training around the safe transportation of lithium ion & metal batteries. Transporting these by road does not pose a problem however when transporting these by air the dangers and risks increase.

Training is often delivered at customer premises as this ensures it is tailored to the needs of the Company. **ONLINE** training is also available for those who transport Section II Lithium Batteries.

Refresher training is required every 2 years as this is when legislation is updated.

Our Consultancy service is tailored to meet legislative requirements along with the operational needs of the Company. For further information on our services please contact us.

TRANSPORT MANAGEMENT CONSULTANCY

Specialist has many years' experience in providing transport operational compliance audits to help prepare for any DVSA checks or as part of best practice to ensure your own internal systems are legally compliant.

Our industry experts will be able to guide you through the legal requirements without the pressure from an enforcement agency.

DRIVER CPC

Currently in **Year two** of the Driver CPC cycle, with **Year 3** fast approaching in September. Maybe it is time to start looking at your Driver CPC requirements. With the last 12 months proving to be very difficult for companies, companies may find they have fallen behind with their Driver CPC training.

Here at Specialist, we provide our customers with options to comply with the DCPC legislation, whether this is the **face-to-face** public open courses we run monthly, or whether it's the bespoke in-company courses we deliver, locally and nationally. We also have the option of delivering the courses **online** which has the added advantage of being able to reach your drivers wherever they are in the country and from the comfort of their own environment!

With 12 years of experience, we can offer advice and guidance to ensure Driver CPC is a benefit to you as an organisation and not just a tick in the box!

Specialist's Driver CPC courses cover a variety of subjects relevant to a driver's role. Our modular course programme consists of 10 x 3.5 hour modules which can be combined in pairs to make seven hour courses. These include:

- ◆ Mental Health Awareness
- ◆ Drivers' Hours
- ◆ Regulatory Compliance
- ◆ Vulnerable Road Users
- ◆ Safe Loading
- ◆ Tachographs
- ◆ Drug & Alcohol Awareness
- ◆ Professional Driver Knowledge & the Highway Code

In addition to the above, there will also be the following two modules available from **September 21**:

- ◆ Bridge Strikes
- ◆ Dealing with an Emergency

Alternatively, there are stand-alone 7-hour programmes which are also approved by another awarding body making the course dual qualified hence greater value for money. These include the following:

- ◆ ADR – Carriage of Dangerous Goods – up to 21 hours of DCPC
- ◆ Tanker Awareness
- ◆ Emergency First Aid at Work

IN-COMPANY

In-company courses are ideal for those companies who can release larger numbers of drivers to attend training (up to 20 per course). The benefit of in-company courses is that they can be arranged at a location and date to suit. The customer can choose any of the existing courses available. This option also makes it easier to achieve optimum course loading and thus maximises value for money. This option is also available for **online** delivery.

PUBLIC

Our public courses are aimed at smaller organisations, or those that cannot release a large number of drivers at the same time or for those drivers have been unable to attend their in-company course.

Public courses cover a wide range of subjects and are scheduled on pre-set dates, allowing you to plan them into your operations. Courses are available during the week and at weekends.

“As someone who has to look after the training of 30 drivers, I have found Specialist Training & Consultancy to be a very professional service where nothing is too much trouble, the company have been particularly adaptable during COVID-19 pandemic providing excellent communication throughout. I have always had positive feedback from the drivers who have attended courses and that has continued during the introduction of online courses.”

Gareth Perry, Oil Salvage Ltd, February 2021

DRIVER TRAINING

We offer several solutions to the challenges of driver improvement. These range from simple driving assessments to a completely integrated training programme.

BANKSMAN

This course is suitable for those who have a responsibility for directing vehicles within loading bays / vehicle yards. It is held at customer's premises to enable the trainees to learn in the environment in which they will be working.

YARD SHUNTING

This course is designed for those with a responsibility for manoeuvring vehicles or trailers around the Company's own yard. Training can be provided on a wide range of vehicles including the specialist Shunting vehicles such as Terberg, Tug or Prime Mover. This course is carried out at customer premises using their own vehicles.

Training is suitable for new operators who may only have a car licence as well as experienced operators who may require refresher training.

DRIVING ASSESSMENTS

Driving Assessments can be tailored to individual requirements and can help give an organisation a vital snapshot on its drivers' skills and knowledge. Driving assessments can be carried out on all vehicle types, using the customer's own vehicle. These assessments can range from one-hour snapshots of a driver's abilities to full day in-depth assessments with corrective tuition. Please call to discuss your requirements.

STANDARD ASSESSOR

The Standard Assessor course is designed to train an experienced driver to be a dedicated "in house" assessor. This can be carried out on all vehicle types, using the customer's own vehicle. It also serves to prepare them for higher level assessment training should they wish to progress further.

"We have used Specialist Training for over a decade and find them professional and knowledgeable in all aspects of the training. I would recommend them for any of their training courses."

John Preston, Option Hygiene Ltd, February 2021
